### Optional Nose Pieces Available For Monobolt

#85126 .....3/16"

#85127 .....1/4"

CE 304-E

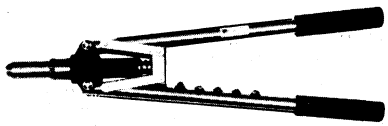

Our most powerful pneumatic hydraulic riveter. With a traction pulling power of 4200 lbs., it easily upsets structural rivets such as: Magna-Lock®, Hemlock®, Monobolts®, Lok-Bolts, & Q-Loks™. Its long stroke (7/8") enables the tool to set most rivets in 1 actuation. Comes equipped with nosepieces to install 3/16" & 1/4" standard rivets, 3/16" & 1/4" monobolts & 3/16" & 1/4" structural rivets.

## CE 300 PNEUMATIC HYDRAULIC

Powerful streamlined tool for setting blind rivet diameters 3/32" thru 5/32" in all metals, 3/16" in aluminum or steel. The simplicity of design enables a quick change of rivet diameters by inserting the correct size nosepiece. Equipped with a plastic bottle to collect spent mandrels from rear of tool. Requires only 78 - 85 PSI of air. This high speed production tool is ideal for the assembly line.

CE 300 .....

**"THE BIG BRUTE" Model #250 B**  
Extra heavy-duty rivet tool. Allows riveting in areas where other tools won't reach. Exerts tremendous pulling power for large rivets. Made of durable metals with shock resistant handles and nosepieces that are conveniently stored in the handle. Equipped with five nosepieces for setting 3/32", 1/8", 5/32", 3/16" and 1/4" diameter rivets in all materials. Unlike other tools only a nosepiece change is needed to convert to other rivet sizes.
